THE BALL .- The regimental ball last night was the most magnificent one we ever attended in Washington, the scene being more gorgeous and exciting than one can imagine who was not present. The open act of the evening presented a tableau that struck all with surprise and admiration. As the curtain slowly rose, three tents were seen in the back ground surrounded with volunteers in brilliant uniforms laying around them with arms in their hands, the great tent of General Washington forming the centre of the picture. The processi n was then immediately formed, and headed by the whole staff of the regiment with the venerable George Washington Park

don, and a premium at Crystai Palace, New York.

Also, the first awards of the Maryland Institute for three Custis, surported on either side by Col. Hickey | years past. and Lieut Col. Riley, marched around the hall; the staff stopping for a time in the Washington tent as though holding a council of DR. HOOFLAND'S CELEBRATED GERMAN BIT war. Hundreds of our young and gallant volunteers each with a beautiful girl on his arm, joined in this procession, the ladies adding even more than the flashing uniforms in making up the sum total of the brilliancy of the scene. Shortly afterwards the lounging volunteers arose, struck the tents, and laid aside their arms of the scene. Store of the cure of which it is certain. It is prepared and sold only by Dr. C. M. Very numerous are the ill effects caused to the precious organ of sight from the commencement of using glasses in not being pree sely suited, by the use of an Optometer; and the practice of many years, enables him to measure the focal distance of the eyes, and such glasses that are absolutely required will be furnished with precision

and satisfaction J. T acknowledges the very liberal encouragement already obtained, and further solicits the patronage of those that have not yet availed themselves

Persons that cannot conveniently call, by sending e glasses in use, and stating how many inches they can read this print with their spectacles, can be supplied with such that will improve their sight. Innumerable testimonials to be seen; and references given to many who have derived the greatest ease and comfort from his glasses.

Circulars to be had gratis, at his office, No 519 Seventh street, three doors from Odd Fellows' Hall, Norrolk, Settember 7, 1854. Sir-The Spectacles you made for me suit very

well, and seem to have improved my sight more than any other I have lately tried. LITT. W. TAZEWELL. I have tried a pair of Spectacles obtained from Mr Tobias, and find them of great assistance to my sight, and corresponding with his description of the focus. I recommend him as a skillfu! optician.

HENRY A. WISE Mr. J. Tobias: Sir-The pair of Spectacles you furn ened me yesterday are particularly satisfactory to, me They are very decidedly the best I posses, and I am the owner of eight or nine pairs, car sfully selected in different places and from optici ans recommended to me on account of their profe scional standing in England, France, and the Uatted Sates I have been also pica-ed with your remarks and directions on the treatment of the eyes, for the purpose of pre-

serving and in proving the sight.
Respectfully yours,
Chas. Caldwell, Professor of M. C., Louisville, Ky. LYKCHBURG, Nov. 18, 1854 Mr. John 'fobias having furnished me with Glasses, by which I have been greatly aided, (my vision

having suffered greatly from reading at night in my earlier life) it affords me the highest pleasure to say that I consider him a skillful practical optician, and well prepared to aid those who near need his profes-WM. B. ROUZIE, sizual services. Elder of Methodist Conference.

WII MINGTON, N. C., Jan. 97, 1854.

Mr. J. Todias: Dear Sir-I am happy to say that the Spectacles which I obtained from you last week are entirely satisfactory. From an inequality in the visual range of my eyes, I have heretofore found great difficulty in getting glasses of the proper focal distances. It affords me pleasure to state, that by the aid of your optometer this difficulty has been happily obviated, so that the Glasses you furnished me are decidedly the best adapted to my eyes of any I have ever yet

used. Very respectfully yours, R. B. DRANE, Rector of St. James' Parish. Department of Interior, May 7, 1855. From natural defects and the unequal range of my

eyes, I have been compelled to use glasses for several years. I have tried different opticians without obt-ining glasses perfectly fitted to my eyes. Four months since Mr. Tobias made two pairs especially for me, which I have found to serve me perfectly. By the use of his optimeer he is enabled to adapt Gasses minutely to the eye I most cheerfully recommend Mr. Tobias to all having occasion to use glasses, and bear my testimony as to his skill as an HENRY E BALDWIN, Assistant Sect'y to siga Land Warrants.
